

2423 East Robinson Avenue, Springdale, Arkansas 72764

Operations Procedure 3-18-25.1

Construction Zone pick-up and drop-off

When an existing bus stop is located within a construction zone, we will not pick up at that location, riders will need to make their way to the nearest bus stop location outside the construction zone.

If a passenger pulls the stop cord for a bus stop inside a construction zone, let them off at the soonest safe drop point after you have cleared the construction zone.

Sincerely,
Bobby Tomlin
Operations Director, Ozark Regional Transit.
